

Functional Pathways

Therapy that exceeds expectations

Making a Difference in the Lives We Touch

Functional Pathways is a national therapy solutions provider committed to exceeding expectations by delivering outstanding ROI through our Relationships, Outcomes, and Innovation. As a therapist-owned and operated company with 3 decades of experience, we have the tools and expertise to help our partner facilities and communities become centers of excellence across the continuum of care.

#FeelTheLove
#CultureOfCare

Our Relationships

We are laser-focused on creating great relationships. That starts by partnering with the right clients – people and companies whose missions and values align with ours. Our client partnership strategy starts by **nurturing strong relationships** while producing industry-leading clinical and financial outcomes. In short, ensuring our clients' needs are met and goals are reached, by offering a hierarchy of support at all levels of our organization and a **culture of care**.

Our number one priority is to provide legendary service and support to our patients, our clients and our therapy teams. It's the reason Functional Pathways has a **97% client retention rate** and a World Class **NPS Score of 80**.*

(*Net Promoter Score (NPS) is an index that measures how likely clients are to refer a company, based on their satisfaction. A score of 80 or above is "World Class". The healthcare industry has an average NPS score of 38.)

Our Outcomes

Functional Pathways is committed to exceeding expectations by setting the **Gold Standard in Clinical, Compliance and Financial Outcomes**. We provide direct access to our clinical specialists and render in-depth training and success strategies for MDS coding, PDPM, QM/ QRP/VBP, CMS updates, compliance risks, and reimbursement.

- 15% lower rehospitalization rate than national average
- 82% of our partner facilities are 4 or 5 Stars for Quality Measure Rankings
- Our Be Steady fall prevention program reduces falls by 43%
- Appeal win rate = 100% for 14 consecutive quarters

Our clinical programming is backed by a team of 100% RAC Certified clinical, reimbursement, and compliance experts to provide the training and support you need. Our dedication to providing clinical excellence and a higher level of support to our client partners, is second to none.

CELEBRATING
29+ years
Of Clinical Excellence

Our Proprietary Innovations

RightTrack™

Innovative Rehab Outcomes

Care management software provides facility staff,

therapists, patients with real time therapy progress and assists in discharge planning to reduce rehospitalizations.
